

## There Is a Place

Morten Harket

Baby, there is a place for you and me  
Sooner or later we shall see  
Through the tears we cry

And baby, our time has only just begun  
We are different, we are one  
What more do we need

There's a silent world  
Shining from afar  
There's a drop of life  
Among the stars  
That is where we humans are

Put your darker thoughts aside  
Lay back in my arms tonight  
Everything is right

And join me  
All the things that we will see  
Soon will turn to memories  
We better stay awake  
Every morning brakes

And, there's a silent world  
Shining from afar  
Just a drop of life  
Among the stars  
That is where we humans are
