

When I Reached the Moon

Morten Harket

When I reached tje moon,
It turned to stone
Since I won your heart
I've been alone
I was drawn to the light,
Circling 'round
I should have kept
My feet on the ground

I dreamt of you, my love
The dream came true
I came to know a way of
Losing you

The feelings that you gave me
I've never known
Since I won your heart
I've been alone
I'm on the dark side
I'm leaving soon
All I ever cared for
I can see from the moon
