

# When I Reached the Moon

Morten Harket

When I reached tje moon,  
It turned to stone  
Since I won your heart  
I've been alone  
I was drawn to the light,  
Circling 'round  
I should have kept  
My feet on the ground

I dreamt of you, my love  
The dream came true  
I came to know a way of  
Losing you

The feelings that you gave me  
I've never known  
Since I won your heart  
I've been alone  
I'm on the dark side  
I'm leaving soon  
All I ever cared for  
I can see from the moon
