

Whispering Heart

Morten Harket

Take you shoes off
Drop the sand on the street
And touch me baby
Make it real
Make it real

Go and show a spinning world that
Naturals don't learn

Take you shoes off
Drop the sand on the street
I have been waiting for you
There's this place where we can meet

You are in the world baby
Don't forget to burn

Going high
Going under
Going in

I see a new beginning
See you dancing in it
Go, light a flame and let it burn to the end
I see a brighter limit
See you dance into it
Whispering heart you are always the same

Dream about it
Draw your lines in the sand
Sometimes the way things happen
We don't need to understand

We are in the world baby
You and I will burn

Going high
Going under
Going in

I see a new beginning
See you dancing in it
Go, light a flame and let it burn to the end
I see a brighter limit
See you dance into it
Whispering heart you are always the same

Shine on the street
Make it real

I see a new beginning
See you dancing in it
Go, light a flame and let it burn to the end
I see a brighter limit
See you dance into it
Whispering heart you are always the same
