

## Drowned In Your Blood

**Mortician**

Lying in the tub  
Need to spill your blood  
Throats and wrists are slit  
Now it's time for your death  
Body slowly drains  
Pouring from the veins  
Blood is rising high  
Covering your eyes  
Submerged in your blood  
Filling up your lungs  
Clogging up your breath  
Now you lie in death
