

Marauding Savages

Mortician

Broken down in the desert
Stranded and defenseless
Inbred mutant cannibals
Preparing for attack

Corpses of past victims
Littering the mountains
Flesh-eating family
Preying on the weaklings

Carving the flesh, dismemberment
Chopped up and hacked, savage attack

Marauders in the hills
Enter and you'll be killed
On your flesh they will feast
The savage human beasts
