

## Revenge

### Mortician

Stripped and naked, raped and beaten  
In blood she lies, alone to die  
Nightmares torment the mind  
Rage building up inside  
No mercy for her cries  
Revenge, they now must die  
Murder burns in her eyes  
Strung up and left to die  
Seduced into the tub  
Castrated, dying in blood  
Rapists meet their demise  
Bloodlust is satisfied  
One more is left to kill  
Axe splits open the skull
