

Starlight - starbright  
Show me the light  
Starlight - starbright  
Show me the light

I confess that sometimes  
I question how things are  
I ask myself if I gaze into the starlight  
I know that I will be alright.  
But loved ones and friends  
I pray will be there too

Life is short - am I aging  
When I know I'm still learning  
Questions formed - and the answers  
There's no mystery  
Cause I know the purpose of life

Starlight - starbright  
Show me the light  
Starlight - starbright  
Show me the light

Murder, lies, deceit  
I will follow none of these  
Oppressed and consumed  
But still my life is free  
Life on earth calls for strength  
Respect and courage I must build within

Eloi - dawn on me  
The dawn of eternity  
Eloi - dawn on me  
The dawn of eternity
