

## Toxic Shock

### Mortification

Over indulgence in substance you require  
To settle down, to feel sane, the his is in your mind  
Veins pumping, eyes lost, hideous life of pain  
It hates you now, the joy is gone, death crime insane.

Drug free body, you must decide  
Drug free body, beware! The toxic shock.

A life of compulsion, excessive in every way  
No moderation, more sensation, feelings inside your brain  
Young bodies may take it, but age will tell the toll  
Satans plan to kill you young, possession growing strong.

Drug free body, you must decide  
Drug free body, beware! The toxic shock.

Pain, fear, despair  
Hope, it is the other way of life, you can be saved  
from the toxic shock, from the pain inside  
From a mind of loss, see the cross

Back street hangout, in drains you do await  
Body shacking, heart is racing, frantic for you man  
More suffering, excessive, ways have killed your mind  
You will crawl the gutters of filth to fix your pain

Drug free body, you must decide  
Drug free body, beware! The toxic shock.

Many will testify, that through the power of God  
All is broken, all is clean, God can heal your mind.  
Drug free, it can be your way  
Simply see that it is done, Christ is there to save.

Drug free body, you must decide  
Drug free body, beware! The toxic shock.
