

Can't Get Where I Belong

Mos Generator

Please give me wisdom
When I've got nowhere to go
Please take my sorrow
When I've got no one to know
Take all my heartache and turn it into love
All that I need right now
Is salvation from above

I can't get where I belong
I don't know where I come from

What you call freedom
Something you'll never know
What is this sacrifice
A life long undertow
Is there a reason
A reason to resist
I'm calling you out right now
Tell me why do we exist
