

## Can't Get Where I Belong

Mos Generator

Please give me wisdom  
When I've got nowhere to go  
Please take my sorrow  
When I've got no one to know  
Take all my heartache and turn it into love  
All that I need right now  
Is salvation from above

I can't get where I belong  
I don't know where I come from

What you call freedom  
Something you'll never know  
What is this sacrifice  
A life long undertow  
Is there a reason  
A reason to resist  
I'm calling you out right now  
Tell me why do we exist
