

# Lonely One Kenobi

Mos Generator

So much confusion  
I've got to take it down  
I'm on the edge of losing  
Everything I ever found  
I walk through this lifetime  
My head deep in the sand  
I can tell you right now people  
That I never do the best I can

Destitute and losin'  
Paralyzed by the haze  
I look at myself in the mirror  
And I know I've seen some better days  
I crawl through these deathtimes  
Because I see the light  
There's just got to be something better  
Than living an eternal lie

Lonely One

So much confusion  
I've got to take it down  
I'm on the edge of losing  
Everything I ever found

Lonely One
