

Pentagramagraph

Mos Generator

When it comes, I'll know
When he's won, it shows
The doom of all worthless souls
The pentagramagraph

The true Megiddo machine
Showing things never seen
(it's true, I believe in you)
Hold the words in the hand
Bend the rule for the scam
(it's true, I believe in you)
Make the move, take a stand
Now's the time, take the man
(it's true, I believe in you)
Humankind genocide
Do it right this time

Hold it up to the sun
Let the rays turn it on
Behold the kingdom of God
The pentagramagraph

True religion machine
Showing things never seen
(it's true, I believe in you)
Clockwork set it reverse
Kills the modern strain first
(it's true I believe in you)
Make the move, take the stand
Now's the time, take the man
(it's true, I believe in you)
Humankind genocide
Do it right this time
