

Sleeping Your Way To The Middle

Mos Generator

You screw me on the way up
I'll screw you on the way down
I've got a good feeling
I'll see your face again
Sneakin' through the back door

Sleeping your way to the middle
Who the hell ya gonna fuck now baby
Half dressed on a suicide mission
Move in like a dime store lesion
Who the hell ya gonna infest baby
Sleeping your way to the middle

Must feel good
When you lay down
One bed closer to your crown
I've got a good feeling
I'll hear your name again
See it on the bathroom wall

Trazadone woman, stay away from me
I don't need what you've got
You don't need it from me
I've got a good feeling
I'll see your face again
Sleeping your way to the middle
