

## Sleeping Your Way To The Middle

Mos Generator

You screw me on the way up  
I'll screw you on the way down  
I've got a good feeling  
I'll see your face again  
Sneakin' through the back door

Sleeping your way to the middle  
Who the hell ya gonna fuck now baby  
Half dressed on a suicide mission  
Move in like a dime store lesion  
Who the hell ya gonna infest baby  
Sleeping your way to the middle

Must feel good  
When you lay down  
One bed closer to your crown  
I've got a good feeling  
I'll hear your name again  
See it on the bathroom wall

Trazadone woman, stay away from me  
I don't need what you've got  
You don't need it from me  
I've got a good feeling  
I'll see your face again  
Sleeping your way to the middle
