

The Late Great Planet Earth

Mos Generator

Now is the time - see it in their eyes
First & the last - come together in a line
Now is the time - see it in their eyes
We're not gonna last - see it in their lies

Don't move - don't take heed - don't move
Sit still - move no thought - at will
Lay down - it's your time - lay down
Take fate - question not - take fate

Take the signs
Make them real
Leave the rest
All alone
Move to strike
Take the great
Leave the rest
All alone
