

This Is The Gift Of Nature

Mos Generator

I see the sky fall down on the earth
I see it crush these helpless people
Into death or rebirth
Show me revenge Lady
Show me a sign
Show me your actions speak now
Tell me it's the end of our time

This is the gift of nature
God bless this gift of nature

I watch the oceans crash over these lives
Moving like savage human destruction
No warning no lies
Cover us up Lady
Don't waste your time
Gather the gods of wrath
And bury us for all of our crimes

Dispossess us now
Remove existence - Erase us
Total genocide
Leave the earth dead in flight
Across the universe

Dawn of rebirth is upon us right now
Calling on nature's villains
To stake a claim
And take us somehow
