

I remember,  
who you are  
If you take me back, I'll follow  
Your eyes are bright in a tunnel of dark

You look different,  
have you changed your ways?  
You'll still be here tomorrow  
That keeps you fighting for today

Walk with a dream in your bag  
That you've carried through all  
The good times and bad  
You've follow the road  
To the top of World  
Too long

Deepest senses, patient time  
Don't waste your final chances  
You can not hold on to the fire

It makes no difference,  
How it ends  
The days have left you hollow  
Too fast around the bend

Walk with a dream in your bag  
That you've carried through all  
The good times and bad  
You've follow the road  
To the top of World  
Too long (2x)

[Instrumental]

Walk with a dream in your bag  
That you've carried through all  
The good times and bad  
You've follow the road  
To the top of World  
Too long (2x)
