

Out Of The Green Sky

Mostly Autumn

Out of the green sky
Yellow flowers
Scatter on the ashes of the broken heart

I know what I was
And I know where I've been
Does it hurt where I'm going to be?

You're all alone
You're out of your mind

Too many times
Get off your knees
These fallen stars
They're fooling our dreams

And when you feel there's nothing left
Inside
And the swollen time is
Carrying them up to the sky
You're searching for rare advice
Will it come down banging on your door?
So much love, so much pain
It's the
Spread in the flames

We're all alone
We're out of your mind

Too many times
These fallen dreams
They just
Gotta change our religion
Gotta change...
