

Pocket Watch

Mostly Autumn

We got crazy diamond
And a heart with a very tall
I see fields of sunshine
And they're calling us away to the

I've got you
You've got me

We've got wild, wild horses
And they're running with the moon on their backs
I got a rocket three
And it's me from to L.A.

I've got you
You've got me
We've got all the time in the Universe
To dream

We've got Clint Eastwood
And he's gonna blow the suckers away
You'd better run and hide, boys and girls
'Cos it's really gonna make his day

I've got you
You've got me
We've got all the love in the Universe
And we're free

I got all my troubles in a pocket watch
And I keep on banging but it just wont stop
We got all the sunshine in the Milky Way
And they're never gonna stop us 'cos there is no way
No, there is no way

I got all my troubles in a pocket watch
And I keep on banging but it just won't stop
We got all our sunshine in the Milky Way
And they're never gonna stop us 'cos there is no way
No, there is no way at all
