

Little Hands

Mother Mother

My baby's gone like a flame
Put out by the rain
Water down the drain

Little face, little feet, little hands in my mind
Where I'm crying all the time
Where I'm crying all the time

Little face, little feet, little hands in my brain
Driving me insane
Driving me insane

Little face, little feet, little hands not around
No more little sounds
No more little sound

My baby's gone like a flame
Put out by the rain
Water down the drain
