

The Drugs

Mother Mother

Cause you're hotter than the sun
And you're better than the drugs
I used to love

I would lose my decadence
I'd do away with all the dirtiness
For your love
I would become innocent
I'd listen to everything mamma said
For your love

Cause you're hotter than the sun
And you're better than the drugs
I used to love
And you're deadly like a gun
Yeah you're deadly like the drugs
Oh the drugs, I used to love

Send me down an angel
And let it pull me up from my own hell
We could float around this place
We'd be above all of the pain in ecstasy

Cause you're hotter than the sun
And you're better than the drugs
I used to love
And you're deadly like a gun
Yeah you're deadly like the drugs
Oh the drugs, I used to love

Give my best to the mess
I've had my fill of it
And give my worst to the curse
I've had my fill of it
And give my blessing to depression
I've had enough of it
Had e- had e-
Had enough of it

Cause you're hotter than the sun
And you're better than the drugs
I used to love
And you're deadly like a gun
Yeah you're deadly like the drugs
Oh the drugs, oh the drugs
I used to love
