

# Anything at All

Motion City Soundtrack

Let's do this

I've been dying to hear what you're going through  
I've been trying to find out what's up with you  
There are too many secrets  
This distance between you and me

You've been running around like you're bulletproof  
On the brink of disaster, to tell the truth  
And I'm far beyond worried  
I miss you, I hope you're okay

Each time I try to say the things I try to say  
You don't hear anything at all  
You've pulled away from me in every single way  
You don't hear anything at all  
At all  
At all  
At all

I've been waiting what feels an eternity  
Hoping night after night you'll return to me  
And resign from this madness of excess  
This derelict scene

But the chances of that ever happening  
Are a million to one and diminishing  
There's as sadness I feel  
When I think of all that could have been

Each time I try to say the things I try to say  
You don't hear anything at all  
You've pulled away from me in every single way  
You don't hear anything at all  
At all  
At all  
At all

Each time I try to say the things I try to say  
You don't hear anything at all  
You've pulled away from me in every single way  
You don't hear anything at all  
All  
All  
All  
All
