

## Don't Call It a Comeback

Motion City Soundtrack

we don't like endless cycles  
our take is more than meets the eye  
it's our answer yeah that's our answer  
'cause we don't care at all

don't call it a comeback no  
this witness was injured and overthrown away  
this time it's the last dance so come on  
by will alone we set our minds in motion

we don't like endless cycles  
our take is more than meets the eye  
it's our answer yeah that's our answer  
'cause we don't care at all

long winded the progress oh  
setback after setback the need to play remains  
call it what you will somehow i know you will  
and by will alone we set our minds in motion

we don't like endless cycles  
our take is more than meets the eye  
it's our answer yeah that's our answer  
'cause we don't care at all

i see that part of this has something to do with mediocre memor  
y  
this take is harder than the old and new combined  
head buried attack these manic men  
red glares from the color of outstretched hands  
get it higher

we don't like endless cycles  
our take is more than meets the eye  
it's our answer yeah that's our answer  
'cause we don't care at all
