

# Her Words Destroyed My Planet

Motion City Soundtrack

Maybe you were right after all...  
Maybe I'm just bad news...  
I've been drowning in memories  
Call it residual blues.  
I fell asleep watching Veronica Mars again.  
(Hey!)

I still futz with that tourniquet,  
and tried to squeeze on your dreams.  
Slung it on- it's a perfect fit.  
What do you suppose that means?

My parents keep asking when you're planning on coming around.

If we'd only stayed together  
I might not have fallen apart  
But the words you served destroyed my planet.  
I stall before I start.  
I stall before I start anything at all.

Got a job at uncommon grounds,  
I finally shaved off that beard.  
I sold my Xbox to Jimmy down the street.  
Hell, I even quit smoking weed.  
I'm taking an online course- I'm learning to speak Japanese.

If we'd only stayed together  
I might not have fallen apart  
But the words you served destroyed my planet.  
I stall before I start.  
I stall before I start anything at all.

The things that used to mean so much to me...  
have gone the way of dinosaurs, hopes and dreams, and everything.  
All I want for you to be is happy or something...  
I guess anything is better than the time you spent hoping I'd get it sorted out.

I sent you a post card  
But the post office sent it back...  
They said the buildings been torn down.  
I just miss what I thought we would have.

If we'd only stayed together  
I might not have fallen apart  
But the words you served destroyed my planet.  
It's all my fucking fault!

If we'd only stayed together  
I might not have fallen apart  
But the words you served destroyed my planet.  
I stall before I start.  
I stall before I start anything at all.
