

# My Favorite Accident

## Motion City Soundtrack

I got the message long before you said you knew  
There was no chance of us at all  
With no velocity and empty-headed hard and far-too-long  
I spent two years alone with you  
Just when I thought I had forgotten  
You came back soft without a sound

You said we were an accident  
With accidents you'll never know what could have been  
So we were an accident  
You'll always be my favorite one

You hit the road and left me an ocean  
I can't swim in the silence of your skin-skin please let me in  
Side the times we never had right  
Inside two years alone with you

You said we were an accident  
With accidents you'll never know what could have been  
So we were an accident  
You'll always be my favorite one

We could have been (We could have been again)  
Instead of accidental running always running (why can't you believe)  
We could have been (We could have been again)

Long winded promises of future company  
Up close the sound remains the same  
Without the reign of terror over every momentary change  
We are exactly as before

You hit the road and left me an ocean  
I can't swim in the silence of your skin-skin please let me in  
Side the time I had to forget you  
Inside no chance of us at all
