

Stand Too Close

Motion City Soundtrack

If I stand too close I might fall in
But if I'm too far gone I'll never win
If you believe in me I might just want to spend some time with
you again
I'm afraid I tend to disappear into an anxious state when you d
raw near
There is no reasoning it's quite a silly thing
But it's the way I've been for years
So I will understand if you don't stay
They say I'm great at first but then the magic fades
Into an awful hue of dismal views and pessimistic attitude

All this distance
Years of sweet resistance
Swirling over head
Like angry clouds of discontent

I have apologized a billion times
When I've gone off the wall like Busta Rhymes
And pulled a stupid stunt that left you thinking
there was something wrong with me
you've thrown a few choice phrases at my way
And I've ignored them all as best I could
Except that tiny bit
How I just can't commit
There is some truth in what you say

All this distance
Years of sweet resistance
Swirling over head
Like angry clouds of discontent

If I stand too close I might fall in
But if I'm too far gone I'll never win
If you believe in me I might just want to spend some time with
you again
I'll spent some time with you again

If I stand too close I might fall in
But if I'm too far gone I'll never win
If you believe in me I might just want to spend some time with
you again
