

I cut you out and safely discarded you away
Then you came back and sprang your attack on my parade

Yeah, I wanna know
I'm trying to understand
How this could happen again

You keep knocking me out
(I can't get up)
You keep knocking me out
(I'll just stay down)
You keep knocking me out
Out, out

My best of intentions left me defeated in the end
Yeah, I had the guys but clearly it went to my head

Yeah, I gotta know
I'm trying to understand
Every time I turn around

You keep knocking me out
(I can't get up)
You keep knocking me out
(I'll just stay down)
You keep knocking me out
Out, out

To tell you the truth
I don't mind the abuse anymore
It's not about you
It's the damage I long to endure

You keep knocking me out
(I can't get up)
You keep knocking me out
(I'll just stay down)
You keep knocking me out
Out, out

You keep knocking me out
You keep knocking me out
Out, out, out
