

Your lips and skin, they taste of sin  
Step 1, there's silence in your screaming  
As I'm cutting out your tongue  
This will be the last time that we ever play this game

Step 2, feast upon your insides  
Drain the blood out from your veins  
This will be the last time that you ever see my face

You've got my back against the wall  
You've got my hands around your throat  
I'll watch the blood drip down your mouth  
You said let's dance

Begging for mercy, but nobody heard me  
I so tried to stop this, but just couldn't help it

With all the air in my lungs, I will scream for you  
And you can't stop me now, 'cause you're already dead  
The only sin in our lives is to not ever have one, so let's sin  
'cause you're already dead

You've got my back against the wall  
You've got my hands around your throat  
I'll watch the blood drip down your mouth  
You said let's dance

I won't make you beg so just get down on your knees  
Tell me you need me and that you're dying to please  
If hell is for real then we have not much time left  
We need to drain this disease from all the veins in your neck.

I won't make you beg so just get down on your knees  
Tell me you need me and that you're dying to please  
If hell is for real then we have not much time left  
We need to drain this disease from all the veins in your neck.

I won't make you beg so just get down on your knees  
Tell me you need me and that you're dying to please  
If hell is for real then we have not much time left  
We need to drain this disease from all the veins in your neck.
