## Reincarnate

## **Motionless in White**

You pull the trigger just for fun Forgetting I'm a loaded gun So hate me for the things I've done And not for what I've now become I want this, I need this, I love it

Crawling from hell Fallen from grace And there is nothing left to take Leaving the past to the grave So we can reaincarnate

You sit upon your throne of filth Condemning what you haven't built So hate me cause you're standing still Watching while I shoot to kill I live this, I breathe this, you crave it

Crawling from hell Fallen from grace And there is nothing left to take Leaving the past to the grave So we can reaincarnate

There's one thing you forget You can't make me play dead I've swallowed your bullshit No respect, you make me fucking sick

I won't bite my tongue I'm not afraid A spineless dominion of nothing is all you will reign You laugh but what did you create? Bitch, you give a fucking asprin a headache

Through hell from grace There's nothing left

Crawling from hell Fallen from grace There's nothing left for you to take Driving the nail through my mistakes So we can reincarnate

We lie down We're sore and sick We fall down Sink or swim

Underground The remedy for who we are And what lies beneath

Reincarnate!
