

Ride My Wild Heart

Moto boy

I spy with my black eye
A vicious world and a vicious ride
We're gonna dance with the devil tonight
Shaky shake in the pale moonlight

And if you ever get hopelessly poor
Even if you lose it all
I just know I'm gonna love you more
I just know I'll love you more

Ride my wild heart
You can take it anywhere you want
Ride my wild heart
Nothing's ever gonna keep us apart
Ride my wild wild heart

There's a million things that I shouldn't do
Stay out of trouble
Keep my head out of the blue
I wanna do them all with you
I wanna do them all with you

Ride my wild heart
You can take it anywhere you want
Ride my wild heart
Nothing's ever gonna keep us apart
Ride my wild wild heart

Oooh...

Ride my wild heart
You can take it anywhere you want
Ride my wild heart
Nothing's ever gonna keep us apart
Ride my wild
Ride my wild heart
Ride my wild... heart
