

## Bang to Rights

Motörhead

Took her to a bar, I though I'd covered all my tracks  
Thought I had it made, I felt daggers in my back  
You came walkin' through the door sailed into the attack  
Don't seem to be my night  
You got me bang to rights

I ain't gonna fight it baby, there ain't no excuse  
Don't know what to tell ya, but I hope you don't cut loose  
It don't matter anyway, my head is in the noose  
You got me stitched up tight  
You got me bang to rights

I can tell you ain't exactly listening to me  
I just wish that I could thing of some place else to be  
I'm gonna make it up to you, just you wait and see  
My future ain't too bright  
You got me bang to rights
