

Destroyer

Motorjesus

It keeps running out of hand
Beneath the crimson skies
Die alone with your back on the ground
Bleed in world's demise

Running onward to termination
When it's killing me
Running onward into despair
So keep on dying on your knees

So run in the fire
Everything is everything
I am the destroyer
Everything, apart from me, is everything

Purgatory awaiting, 600 degrees
Hellfire hollowness
It's a fuckin' disease

Running onward to termination
When it's killing me
Waiting, slowly, to rot away
So keep on dying on your knees

So run in the fire ...

So you're waiting to crush your soul in two
Get down ...!

So keep on dying on your knees

So run in the fire
Everything is everything
I am the destroyer
Everything, apart from me, is everything
I'm the destroyer ...
... is anything ...
