

Dirty Pounding Gasoline

Motorjesus

Bad gravitation's coming
We're here to bring you nothing
And the bad news
Is the engine's running still

Infernal radiation,
Mindless extermination
No resistance
To the damage and the kill

This is the way, that's why we're here
There is no time to disappear

The more I hate
The more I've seen
It's dirty pounding gasoline

Electric termination
small-minded generation
Spreading
All the evil inside me

It is the way, reality
Increasing immortality

The more I hate
The more I've seen
It's dirty pounding gasoline

Bad gravitation's coming
We're here to bring you nothing
And the bad news
Is the engine's running still

This is the way, that's why we're here
There is no time to disappear

The more I hate
The more I've seen
It's dirty pounding gasoline

The more I hate
It's in between
Dirty pounding gasoline
