

## Dirty Pounding Gasoline

Motorjesus

Bad gravitation's coming  
We're here to bring you nothing  
And the bad news  
Is the engine's running still

Infernal radiation,  
Mindless extermination  
No resistance  
To the damage and the kill

This is the way, that's why we're here  
There is no time to disappear

The more I hate  
The more I've seen  
It's dirty pounding gasoline

Electric termination  
small-minded generation  
Spreading  
All the evil inside me

It is the way, reality  
Increasing immortality

The more I hate  
The more I've seen  
It's dirty pounding gasoline

Bad gravitation's coming  
We're here to bring you nothing  
And the bad news  
Is the engine's running still

This is the way, that's why we're here  
There is no time to disappear

The more I hate  
The more I've seen  
It's dirty pounding gasoline

The more I hate  
It's in between  
Dirty pounding gasoline
