

Down To Zero

Motorjesus

Unbeliever - the walls stare at me - bring the power back to where it should be
Upon these mountains - I'm forever where my soul will rest here
I found a solution - my time was always hard against me - so I found a solution
Facing it with a smile - so out of emptiness

No you can't count down to zero - we can't erase or rewind
But you will always remember - it stays forever there

The foundations - shatter before me, determination - came back to what I believe
My heavy load is - my end is drawing near before my old eyes
I take and had given - under the unforgiving path of time - so out of emptiness

No you can't count down to zero - we can't erase or rewind
But you will always remember - it stays forever there

The signs are always there

No you can't count down to zero - down to zero - you can't erase or rewind
But you will always remember - remember - it stays forever there - forever
