

## Electric Revelation

Motorjesus

the electricity is rising, for my destiny  
time's running out 10 take the lead  
the spark ignited, you will see  
the man that brings us his salvation, or the final call  
new retribution on the rise  
and we will have to face it all

strike, black skies above, feel the storm has come  
feel the tension, the rise of denial

for we have built, the new machine  
the warhead will burn the sun, electric revelation  
believe in me, the lightning comes  
for we can not overcome, electric revelation

at least we testify, we face the unavoidable  
relentless burn the bridges down  
when final benediction comes  
he'll cast the storm, that brings new life, out for a better da  
y  
electric souls remain unbroken, in this apocalypse reign

he will strike em down, evil be undone  
we'll becoming, the saints of hellfire

for we have built, the new machine ...

march on, strike down, as long as the predator comes  
destroy, rebuild, send out to be part of the kill  
7 heads, reign to cease, has been called  
it's the march of the beast, the end is nigh - final trial  
7 angels will appear from the sky

for we have built, the new machine ...

electric revelation, electric revelation  
electric revelation, the saints of hellfire

7 heads, reign to cease, has been called  
it's the march of the beast, the end is nigh - final trial  
7 angels will appear from the sky
