

## Electric Rise

Motorjesus

This is the turning point - the Devil knows my name  
The day that I corrode  
Back from the early grave - and this is not the same  
To rise or to explode  
I fear not what I become - I fear not - come over

Electric rise - riding on - this is the hour  
Electric rise - into the unknown  
I ride with the king of the dead

Backstabber, who betrayed me - try to eliminate me  
The secrets you have told are known  
Who sees it clearer now - 66 burning rounds  
The casket and the cold  
I fear not what I become - I fear not - come over

Electric rise - riding on - this is the hour  
Electric rise - into the unknown  
I ride with the king of the dead

In these electric eyes - I'm feeling no more tears  
This is my destiny - loud and forever

Electric rise - riding on - this is the hour  
Electric rise - into the unknown  
I ride with the king of the dead
