

# Hellmachine

Motorjesus

Black skies in cities of God - You never feel the pain  
Can you feel you're trapped inside the machine

Free yourself with a bullet - When i'm tryin' to scream  
Is it all that you wanted - Stuck inside the in between

The walls of deceiving - The faith in believing

It's all you want - Can't hear you scream  
Inside this hellmachine - Is all you said dead in  
between  
Inside this Hellmachine

I blessed the demons - Of the other side  
Staring, receiving the pain - Try to find new power  
Resurrection unwinds - All you never wanted  
It is all inside my mind

Forgiveness you drown in - Backstabber becoming

It's all you want - Can't hear you scream  
Inside this hellmachine - Is all you said dead in  
between  
Inside this Hellmachine

In here I am without protection And shadows everywhere  
In here I stand burning and breathing - An unleashed  
reign of fear

It's all you want Can't hear you scream  
Inside this hellmachine Is all you said dead in between  
Inside this Hellmachine

Inside this Hellmachine
