

Invisible Man

Motorjesus

I'm the king of radiation, iron, hard as steel
I'm the man of brick and stone that's caught inside the
wheel
Seeing nothing new inside my kingdom borderlined
In this world I'm beholding this war inside my mind

Determination
I'm the unholy one

Now I understand
Pieces in my hand
Everything I am, I'm the invisible man
Shed the skin today
Give it all away
I am, I'm the Invisible man

No return from what your heading for
And peace is not in sight
But it doesn't harm me anymore
This shine, destructive light
Hammer pounding nail, my freedom, Every single word
Finally the solution's here By diggin' in the dirt

Determination
I'm the unholy one

Now I understand
Pieces in my hand
Everything I am, I'm the invisible man
Shed the skin today
Give it all away
I am, I'm the Invisible man

I'm the Invisible man
