

# King Of The Dead End Road

Motorjesus

Full steam, take down - hellfire revelation  
Breakout before - here comes the resurrection  
Welcome to my doom - accelerate, forward, I'm rolling on  
Left all behind - terminating the old life  
Something's waiting deep down in the heart of me and I can't wait to set it free

Get it on I'm the king of the road - unspoiled - unbound - unbroken  
I'm the tank with the kerosene load - and I will leave you behind

I know the Lord is an 8 foot killing machine  
Have faith in steel - control the situation I need  
And what stands in our way - full throttle we're blowing that damn thing up  
I rush, I dash - I never be the last one  
There's still something unleashed in the heart of me and I can't wait to set it free

Get it on I'm the king of the road - unspoiled - unbound - unbroken  
I'm the tank with the kerosene load - and I will leave you behind

Now cause the damage, take the open road  
Of demolition and of selling souls  
Break up and try to stop the thinkin'  
There is one way toward this Hell I'm in  
Live in filth and die in sin - this road is goin' on and on

Get it on I'm the king of the road - unspoiled - unbound - unbroken  
I'm the tank with the kerosene load - and I will leave you behind

Get it on I'm the king of the road - unspoiled - unbound - unbroken

Get it on I'm the king of the road - unspoiled - unbound - unbroken...

Get it on, get on - on a dead end road  
Get it on, get on - on a dead end road
