

Legion Of Rock

Motorjesus

I'm feeling sorry for your weakness - Stay in your own demise
Keep on lookin' what this life's for - But electric union's on
the rise

Stay in battle or be paralyzed - Or always try to be
Brotherhood of company - Forces of evil, watching me

So you never know - Rulers of the dead

This burning fire - Out of the sky
Where all the fallen've gone before
It's in your head - Kings of the dead
A legion of rock, forevermore

Satan's reflection in the mirror - Crushing concrete walls
You can stay in apathy - Or you can burn it all

So you never know - Rulers of the dead

This burning fire - Out of the sky
Where all the fallen've gone before
It's in your head - Kings of the dead
A legion of rock, forevermore

This alliance, forevermore
Ain't this life worth dying for?
Stand in line, all for one
A viral smile, the race is on

So you never know - Rulers of the dead

This burning fire - Out of the sky
Where all the fallen've gone before
It's in your head - Kings of the dead
A legion of rock, forevermore
