

Motor Discipline

Motorjesus

This is the night of testimonial The 10 commandments of the V12 engine We praise the party ceremonial - we start the fire Ant the steel starts bending - now Gentlemen, start your engines... Ready - set (break out now!) 3, 2, 1 - go!

Feed my motor - powerloader - can't be sober - motor discipline Fuel on fire - burning tires - I'm ignited - motor discipline

I can feel the heat that's on my back tonight I ride the monster and the breaks are broken Put the pedal down to make it right I'm escaping Hades when the gates wide open Opponents, prepare for round two Ready - set (break out now!) 3, 2, 1 - go! Break out - heat - full throttle now Running on - bring the evil to rise Shortcuts - in rush - high octane Second to none - let the temperature rise

I think I'm running faster - believe there's no one after - I think I'm gonna make it - motor discipline One with the burning tires - the asphalt is on fire - tonight you're gonna face the - motor discipline
