

Drifting on a frequency
At supersonic speed
Will we ride the rainbow
To the mars, where I'm trying to breathe

Orbit in my hands, novasoul descends
To ride along the asteroids
Supersonic speed

All alone, heading for a space
In anti-gravity

Nebular streams and milky ways
Have become one with my veins
Till I'm growing to godsize
The sinner and his saints

Reverse polarity, turned to dust
To be your fuckin' spaceman
At your supersonic speed

All alone, heading for a space
In anti-gravity, the world belongs to me
All alone, heading for a space
In anti-gravity

Drifting on a frequency
At supersonic speed

All alone, heading for a space
In anti-gravity, the world belongs to me
All alone, heading for a space
In anti-gravity
In anti-gravity ...
