

The Church (Of Booze And Kerosene)

Motorjesus

Of heaven and hellfire - fell the reincarnation Of a new god that
is my own - I know - welcome the saints back from the past
Nothing more and nothing less - but we're trying to believe in
nothing new Our time is now - the only light - that we have seen
- I know he brings - the only light

Thy kingdom will come - thy will shall be done - swear to the
unseen - the church of booze and kerosene

He's near - it's the hour - no need for blasphemy - yeah You meet
the maker of the rock - exchange the demons of your past
Testament of heaviness - heaven and hell out of control - we get
it on His reign is now - the guiding light - that we should see
- I know he brings - the only light

Thy kingdom will come - thy will shall be done - swear to the
unseen - the church of booze and kerosene We all shall become -
the saints of the steel - higher than I am - the church of booze
and kerosene

It is breakin loose - to the other side - "So, demon my name -
rising gain - fear the unholy one"

Thy kingdom will come - thy will shall be done - swear to the
unseen - the church of booze and kerosene We all shall become -
the saints of the steel - higher than I am - the church of booze
and kerosene
