

# Wheels Of Purgatory

Motorjesus

I've burn the holy gasoline - I rode the death  
I've came - I've seen  
I'm buried 10 feet underground  
But a solution never found  
I am the rising, the rocking, the chief of machines  
I'm the never bound, I'm the man  
So undecided, deny it, alive and unseen  
when everything had lost the destination  
So, it's burning me no more - the only reason  
It's burning me - anymore

Blackmail, steal and lie - told a thousand times  
For a new found glory - wheels of purgatory

Cast out of Hell and back again - bring demolition in the end  
I spend the blood, the energy - black holes are opened up for  
me

The lord of lying, of nothing - of fortune and fame  
Fear the unknown and ahead of it all - forever blinded, enlighten

And this is my game - here's what you wanted  
But prepare for the fall  
So, I'm buried here no more - for no more reason  
I'm buried down - anymore

Blackmail, steal and lie - told a thousand times  
For a new found glory - wheels of purgatory  
Black, fuel, stay alive - told 10,000 lies  
Wheels of purgatory - sacrifice is killing me no more

I'm facing my destiny - I'm ready, I'm prepared  
For the sorrow - for the sorrow - I'm hollow

Blackmail, steal and lie - told a thousand times  
For a new found glory - wheels of purgatory  
Black, fuel, stay alive - told 10,000 lies  
Wheels of purgatory - sacrifice is killing me no more  
...this cold life is killing me no more
