

A Shrug & A Fistful

Motorpsycho

Senseless I'm soaring elevated off of my cloud
flying, I'm catervauling -a spring/snap kinda loud
don't fuck me over again
don't fuck me over, my friend

A shrug and a fistful later, down on all fours again
to beat me black'n'blue won't prove a thing, she said
don't fuck me over again
don't fuck me over, my friend

You know a shrug and a fistful will teach even angels to hate
