

## What If

Motorpsycho

What if the world was round - would anyone believe it ?  
If there was no sound - would anyone hear it ?  
If there was no sky - where would heaven be ?  
If there is no god - there'll still be eternity

Fragile as glass - so little we know  
When time will pass and what time will show  
I can't see a cloud - still I sense the rain  
No crooked road has got me as far as this train  
That won't get me down,  
'Cause you won't see a future 'till you're first in line  
That would be just fine,  
'Cause the end of the circle is the start of the line

All thing must pass,we'll come to an end  
When nothing can last,there's not more to spend  
Well,there is no future,so nothing is to fear  
We're pieces in this puzzle where nothing is common or rare  
That won't get me down,  
'Cause you won't see a future 'till you're first in line  
That would be just fine,  
'Cause the end of the circle is the start of the line

Swim into future,dive beyond time  
Flow with the mainstream,follow the line  
The future's an ocean,we dive beyond time  
Swim with the mainstream,follow the line  
I follow the line...  
That won't get me down,  
'Cause you won't see a future 'till you're first in line  
That would be just fine,  
If the end of the circle's the start of the line  
The start of the line - that would be just fine
