

I Can Feel

Mott the Hoople

Well I know this life is real
If I close my eyes I see
All around my worlds of a million ways
But still I feel
The truth is here in me
It does not matter what you see
For my face is living on borrowed time
But still I feel
I can feel (I'm telling you baby)
I can feel
I can feel

So bury me alone
You can take your flowers home
For there ain't no peace in this world that I know
But I can feel
baby baby
I can feel (whoa)
I can feel (I'm telling you oh)
I can feel (whoa)
(oh yeah)
I can feel (whoa)
I can feel
I can feel
I can feel (come on)
I can feel (whoa)
I can feel
