

## Through the Trees

### Mount Eerie

from up on the hill I can see the lights  
of town through the trees  
and there is wind.  
there is only wind.  
do I disdain them? that "land of dreams"  
from up here you can see them living  
on the way home, through the trees  
I have climbed the hill at twilight  
to find the source of wind  
from up on the hill  
I can see the lights of town  
that land of dreams  
through the trees
